Subject: Brainstorming Session

FYI - I will probably not talk much about the brainstorming session I'm organizing in Denver at this ARSG meeting. Generally, we always try to be inclusive of everyone at our meetings, but we are asking a number of experts to donate their time for us at the brainstorming and we need the right mix of people and I want to limit the possibility that we get pulled off subject at this session. I've already had to tell some people who want to attend that they can't.

At this point we are scheduled to meet for the brainstorming at CH2M Hill in southeast Denver the afternoon of April 1st. We have about 15 people so far who have said they will attend. I'm still waiting to hear from others. We will make notes from the meeting and distribute to everyone.
